March Meeting Recap

At our most recent meeting, Tom Hemphill of the NW Diving History Association shared slides and stories from then early days of scuba diving in our corner of the world. Tom first started diving in 1959, and has been a fixture in our extended dive community ever since. We owe a lot to him and the other pioneers who first braved our cold, dark waters.

We also heard from Candice Landau with an update on the progress of our website. It's looking great! She is eager to hear from us with ideas and suggestions— feel free to get in touch with her at candylandua@gmail.com.
